OBJECTIVE

UX/UI designer with an Associate in Computer Science and Math and Certificate in UX/UI from the University of California, Irvine (UCI) who's passionate about interacting with users, helping to design simple, attractive yet intuitive user- interacted products with excellent collaboration skills with other people.With skills in C, C++, HTML5, CSS, JavaScript, Research,Visual Prototyping & Wireframing, and User Interface Development. Strengths in creativity, teamwork, and building projects from research to execution.Interviewed users and developed persona profiles in a recent collaborative project involving the redesign of a government's website.Adapted prototypes based on usability feedback, resulting in a more enjoyable and streamlined experience for end-users. Computer Science background coupled with coding experience makes me a valuable addition to any team especially communicating with developers.
